

Make your floor

**CLIMB UP THE**

**WALLS**

# Big transformation, small effort with 5G<sup>®</sup> Climb<sup>™</sup>

Välinge has created a revolutionary technology for wall mounting, based on our proven 5G<sup>®</sup> Fold Down installation system used in flooring. Use the panels as studs and simply click the wall panels in place horizontally, vertically or in herringbone pattern. With the specially designed clips, the panels are attached instantly to the studs, without any tools.

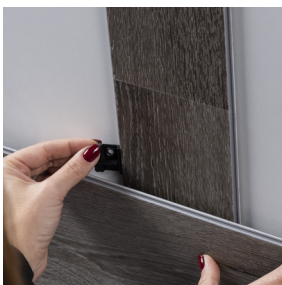

Make your floor climb up the wall and get a perfect match between floor and wall. Be creative and go all the way up.

## Features & benefits

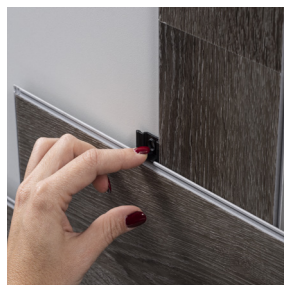

- Fast and easy to install & dismantle
- Suitable for all materials and opens up for multiple pattern installation
- No need for special studs additional materials or tools

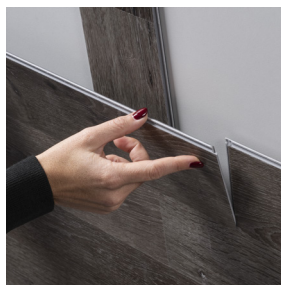

## How does it work?

Angle the clip in the stud

Drag along the stud to lock the panel

Fold in the next panel
